Good speed, oh joyous Spaniel brood,
On duck and snipe so wondrous good,
Success to one and all.
Near "moss-grown runnels oozing well
Through bushy glen or hollow dell"
And quicker wags that wanton tail
As richer grows the tainted gale
Till upward flies the feathered game
To vouch thy truth—confirm thy game.

Good luck to Spaniels one and all,
Low on the leg, or graceful tall ;
But most, oh, curly-pate to thee,
The boy that oft gets on the spree.

Annual Report of the Irish Water Spaniel Association, 1929.

THE year that has gone by, may on the whole be looked upon as a satisfactory one for the Irish Water Spaniel and its Association.

Financially we close the year with a satisfactory balance in hand, a condition contributed to by Col. Birkbeck, who very generously returned his winnings at the Field Trials at Settle to the funds of the Association. I have no doubt there is more general interest being taken in this breed than has been the case for very many years. It remains for members to do their part and support the classes provided at shows better, and also to breed more good specimens. I have known more than one person desirous of taking up this breed, but compelled to adopt another variety through failure to obtain the necessary stock. A General Meeting of the Association was held at Cruft's Show in February and was well attended. On November 16th the Association held its first Field Trials, Col. Birkbeck having placed his most excellent grounds for the purpose available to the Association. Col. C. Bateman, D.S.O., and Mr. T. England very kindly acted as judges, and the Steward of the Beats, Mr. C. Parry, left nothing undone to ensure the success of the meeting.

I am pleased to be able to publish a good photograph of the winner of the open stake, Belle of the Falls, a performance she repeated at the Spaniel Club's Field Trials the following month. It is interesting to note the Irish Water Spaniel on this occasion is photographed retrieving a handsome, un-ruffled cock-pheasant, dispelling the idea possessed by some people in the past, that the "wild Irishman" is only capable of hunting and retrieving wildfowl, a job he is admittedly an adept at, but this photograph shows him the polished retriever, second to none. In the coming year (1930) the Association will again hold Field Trials at Settle, Yorkshire, by the kind invitation

of Col. Birkbeck, and later in the season, on January 20th, at Idsworth, Horndean, Hants, by the kind permission of Lorna Countess Howe, and three stakes will be provided. Abroad, the breed is making steady head-way, especially in Canada; and in France, Mons. Naegely possesses a team probably equal to any in existence. I am very pleased to be able to produce a photograph of his famous bitch, Ch. Douchka du they Rouston, who has won all over France and Spain, and at the French Spaniel Club's Field Trials she won First Prize in open Competition with *all* varieties of Spaniels, and some of the competing dogs were handled by well-known English trainers. Mons. Naegely is greatly to be congratulated on the success of this bitch which was bred in his own kennel, her dam being "Misty Morning," a very nice bitch once owned by Major Court-Treant, who, when going abroad with his regiment a few years ago, was obliged to part with her. She is a full sister to Ch. The Rose of Sharon, the bitch portrayed on the front page of last year's Year Book, having won the Association's Challenge Cup the previous year. I believe this is the first occasion an Irish Water Spaniel has won the premier honours in open competition at Field Trials with all other varieties of Spaniels, and so many people have asked me concerning her performance, that I think it will be of interest to many to reproduce here a translation of the report of these trials which appeared in *L'Éleveur* of December 1st, 1929:—

"French Spaniel Club's Field Trials, Nov., 1929—The Prize of Sologue; Judges: Mons. Laignère and Paul Flury; eleven runners. the Irish Water Spaniel won, beating without effort, Springers and Cockers That very beautiful Irish Water Spaniel bitch, Douchka du they Rouston, belonging to Mr. Naegely, with her first prize becomes a Champion. Well! to finish her Championship with a first prize in a Field Trial, confess it boldly, is not frequently seen! Much more numerous are the candidates to which the necessary certificate is almost charitably granted. Douchka has indeed the gait peculiar to Irish Water Spaniels, which in my opinion and whatever may be said, in spite of its name, is not a variety of spaniels. She

is a very earnest bitch, very energetic, which, in spite of her size, gets in the brambles and piles of wood as well as most Cockers, and much better than some of them. Her way of beating is really that of a well-trained sporting dog; she is extremely clever in working to wind. She points very well a rabbit under a heap of dead wood, which she completely turns over, the rabbit bolts, is shot, well found and retrieved; she starts another rabbit which is missed; another rabbit is shot out of the sight of the bitch, it is wounded and runs about thirty yards further, the bitch finds it and retrieves it alive, well and quickly. At the second trial she starts well two rabbits, and retrieves very correctly the second.—J. DHERS." Douchka is an excellent performer in water.

A Silver Badge, in the form of a brooch, is now available to members of the Association, many of whom already appreciate this excellent production of the Silversmith's art. Members can obtain these badges through the Hon. Secretary at a moderate cost. They can also be had in solid silver, gold-gilt.

Copies of the Rules of the Association, and the Breeder's Cups, as well as the scale of points and description of the Irish Water Spaniel, can be obtained at any time by applying to the Hon. Secretary. It is the earnest desire of the Committee to further the interests of the breed in every way, and suggestions, ideas and criticisms are invited.

DESCRIPTIVE PARTICULARS.

HEAD—Skull and muzzle should be of good size; skull high in dome, good length, and fairly wide, showing large brain capacity; muzzle long, strong, and somewhat square in appearance; *face perfectly smooth*. Topknot should consist of long, loose curls, growing down into a well defined peak between the eyes, and should not be in the form of a wig, *i.e.*, growing straight across.

EYES.—Comparatively small *dark brown and very intelligent-looking*.

EARS.—Very long and lobe-shaped in the leather, set low, hanging quite close to the cheeks, and covered with long, twisted curls of live hair.

NECK.—Fairly long, strong, and arching (carrying the head *well above the level of the back*), and strongly set into the shoulders.

BODY (including size and symmetry).—Fair sized, round, and barrel shaped; so stout and compact-like as to convey a "cobbliness" in appearance. Height—Dogs about 21 to 23 inches at shoulder; bitches about 20 to 22 ins.

NOSE.—Large and well developed, and of a dark liver colour.

SHOULDERS AND CHEST.—Shoulders very powerful, but *not too straight or "cloudy"*; chest deep, but not too wide or round between the fore-legs, though large in girth, with ribs well-sprung behind the shoulders.

BACK AND LOINS.—Back, short, broad, level, and very powerfully coupled to hind quarters. Ribs carried well back, and loins deep and wide.

HIND QUARTERS.—Very powerful, with long, *well bent stifles and hocks set low*.

STEER.—Short and smooth, strong and thick at root (where it is covered for three or four inches with short curls), and, gradually tapering, ends in a fine point. It should not be long enough to reach the hock joint, and should be carried nearly level with the back in a straight line.

FEET AND LEGS.—Feet large, somewhat *round and spreading*, well-clothed with hair, both over and between the toes, but free from any superfluous feather. Fore-legs, well-boned and straight, with *arms well let down*, and carrying the forearm at elbow and knee, in a straight line with point of shoulder.

COAT.—Composed of dense, tight, crisp, ringlets, entirely free from woolliness; the fore-legs covered with feather which should be abundant all round, though shorter in front, so as only to give a rough appearance; *below the hocks the hind-legs must be smooth in front but feathered behind down to the feet*.

COLOUR.—*A very rich puce liver*, white on chest objectionable.

GENERAL APPEARANCE.—That of a *smart, up-standing strongly built*, but not leggy dog, combining great intelligence and endurance, with a *bold and dashing* eagerness of temperament, and a characteristic gait, distinctive of the breed, which is a different movement to that of any other variety of Spaniel.

RULES AND REGULATIONS

Irish Water Spaniel Association.

Name and Objects of the Association.

I.—The Club shall be called the IRISH WATER SPANIEL ASSOCIATION. Its objects shall be—(a) To promote the breeding of pure Irish Water Spaniels; (b) To define precisely and publish a description of the true type, and to urge the adoption of such type on breeders, judges, &c., as the only recognised and unvarying standard by which Irish Water Spaniels shall be judged; (c) To do all in its power to protect and advance the interests of the breed, by offering prizes at Dog Shows, establishing Field Trials, and adopting such other means as may be deemed advisable.

Establishment and Constitution.

II.—The Club shall consist of a President, Vice-Presidents, Hon. Secretary and Hon. Treasurer, and a Committee of not more than nine (including the Hon. Secretary and Treasurer), and an unlimited number of members whose names and addresses shall be kept in a book by the Hon. Secretary. Not less than three members to form a quorum.

Subscription.

III.—The Annual Subscription shall be *One Guinea*, due on 1st January each year (or within one week after election), and there shall be no entrance fee. No one shall be entitled to the privileges of membership or to win any special prizes offered by the Club until his Annual Subscription shall have been paid. The liability of a Member shall not exceed his Annual Subscription. That any Member failing to pay his Subscription by 1st February shall be reminded of the omission by the Hon. Secretary, and should it remain unpaid by first March it shall be within the power of the Committee to erase his name from the list of Members.

Election of Members.

IV.—Candidates for Membership must be proposed by a Member of the Club, and elected by the Committee by voting papers, and one negative in five votes to exclude. On the admission of each new Member, the Secretary shall send a notification to that effect, and furnish him with a copy of the Rules.

Management.

V.—The Management of, and the property of the Club shall be vested in the Committee. The Committee shall also have the power of making Byelaws, and deciding upon all matters in dispute, or not provided for by the Rules. Three to form a quorum at Committee Meetings.

Meetings.

Notices of both meetings shall be sent to the accused Member advising him of the place, date and hour and that he may attend and offer an explanation. If at the Special General Meeting a resolution to expel is passed by a two-thirds majority of the Members present and voting, his name shall be forthwith erased from the List of Members, and he shall thereupon cease for all purposes to be a member of the Club, except that he may within two calendar months appeal to the Kennel Club upon and subject to such conditions as the Kennel Club may impose.

The Irish Water Spaniel Association's Breeders' Cups Rules.

I.—The Cups to be called the Irish Water Spaniel Breeders' Cups and Sweepstakes, and to be of not less value than £5 each, open to all members of the Irish Water Spaniel Association, on payment of £1, *i.e.*, 10/- to each Cup, to be competed for by Irish Water Spaniels, bred and owned by the same Exhibitor. Any member may subscribe and compete for each Cup separately, or both as he may desire.

II.—The Cups to be one for either sex, and cannot be won more than *three* times by the same dog or bitch; either shall become the property of the first Exhibitor who wins it seven times.

III.—After the first fee of £1 (or 10/- to one Cup), no additional entry fee will be necessary, until one of the Cups has been finally won, when a 10/- subscription will be asked for to replace it.

Training Irish Water Spaniels as Gun Dogs.

At a General Meeting of the Irish Water Spaniel Association in February, 1928, the following suggestions were formulated for the guidance of trainers and handlers of these dogs at Field Trials, etc.

- (i.) Absolute steadiness to shot, feather, and fur, in any circumstances.
- (ii.) "Dropping" which (includes "sitting" or "standing") when commanded to do so, and remaining so until directed otherwise.
- (iii.) May be required to beat out any rushy, swampy place, or other covert that a Retriever would ordinarily be expected to face, as the Judges may require.
- (iv.) No artificial means may be used to induce a dog to enter water apart from the sanctions of legitimate handling (e.g., no stones, sticks, or such like, may be thrown in).
- (v.) These dogs should work, largely, to "hand-signals," as silence, and the absence, as far as possible, of whistling and noise, on the part of the handler, is essential.
